
Occluded crop row (rover view)
One model
The center plant, written out
Image (input)
Procedural fit
Procedural traits
sorghum
target plant
25 % of the target plant is hidden by its neighbors
maize
target plant
22 % of the target plant is hidden by its neighbors
CropCode
any-to-any autoencoder over photographs, depth, clouds and recipes; pretrained on single plants, then fine-tuned on crop rows to write the center plant
